

Next generation part II

Behind my back the Danish House of kings have taken my seed and made Maiken Gade Misser Winterberg. My seed was taken in 1994 at Rantzausgade by an old (**winter**) lady when I was a soldier in Aalborg. I did a **Misser** (missed the target) in a condom.

When I was brought to Psyatrisk hospital in Randers I made a home page called <https://rongeorgmartinrichard.com> that google turned off. And when I came out I made the page <https://maikenwinteborg.com>. Its in the air. Dasha repræsenterer google. I use the Dashboard.

Eksempel on MÅL i M (Measurements in meters)

I have a girl called Tiffany and her CPR is 220802-6022. She have 22 in the end and 22 at the beginning. 22 is clock 10 and here name starts with **TI**.

I am 186 cm high.

If I put my height into Maikens CPR-number then her cpr numer becomes: 050895-**1863**

My Height

When my height and Tiffanys last numbers are put into the cpr-number of "Sani" - I am 186 cm.

Maiken Gade Misser Winterbergs cpr-number might be **050895-1863** if she have a male cpr-number. However, she could also have a twin with that number. In that case it would be Tanja Dana Husum (a male with a secret girl name)

Princess Leonor appeared on my facebook and she have 2 stripes on her shoulder and the text is talking about housing. Number 2 girl name in the book of kings is Tanja Dana Husum. No money has arrived to build a house so that is a lie and that rimes on height in Danish (løg → høj).
